

Learning Outcomes:

As a result of this seminar, participants will be able to:

1. Describe typical characteristics of children who stutter and how to differentiate stuttering from normal childhood disfluencies.
2. Explain best practices when assessing children exhibiting disfluencies.
3. Explain how to write measurable fluency goals and objectives for school age children who stutter.

Time Ordered Agenda:

15 minutes: What is stuttering including a brief discussion of theories of causation

15 minutes: Speech characteristics of children who stutter

30 minutes: Best practices in stuttering assessment

30 minutes: Writing measurable goals for school-age children who stutter

75 minutes: Best practices in treatment techniques when working with children who stutter

15 minutes: Q&A

Course will be available February 18th, 2022 – February 28th, 2022.
Go to www.ssgbridgeacademy.com and www.ssgpd.com to login and access this webinar.

This presentation will cover assessment and treatment for school-age children who stutter. It will cover typical characteristics of developmental stuttering, best practices for assessment, goal writing, and therapy considerations.

Presenter:

Robin Edge PHD CCC-SLP

Dr. Robin Edge is a Professor of CSD at Jacksonville University where she teaches fluency disorders, healthcare ethics, professional issues, and international rehabilitation policy/cultural competence. Prior to academia, she owned and operated a multi-therapy private practice & has many national and international publications and presentations in fluency disorders, quality of life, and ethics. She has served as the Florida ASHA Advisory Council representative, the FLASHA Vice-President for SLP, and was the Topic Co-Chair for the 2020 ASHA convention's Business Practice and Management committee.

Disclosure Statement:

Financial: Dr. Edge is a paid consultant for The Stepping Stones Group. She has no other financial relationships to disclose.

Nonfinancial: No relevant non-financial relationship exists
